East Texas Truck Systems was established as a water truck rig-up shop in 2006 by David Rhodes in Tyler, Texas. From then we’ve expanded our services to include dump trucks, flatbeds, vacuum trucks, etc. Our priority is to create a quality product that will best serve our customer’s needs. Whether that customer is a municipality, small/large company, fire department, individual, or a dealership.

We sell complete trucks, or we can install a system on your chassis. We are great at working with budgets. So give ETTS a call for any of your truck needs.
